

Article for our Website

Special recognition and pricing for ALL present and former military and first responders. First responders include law enforcement, fire and ems.

In this regard a qualified person signing up to take a puppy or basic class will be reimbursed for the class upon graduation.

The student will register and pay normal club pricing for either class and inform the instructor that they would like to enroll in the class in one of the qualifying categories.

Documentation is required to prove the qualifying category.

After graduation the instructor will notify Ralph Orlando of the K-9 program that the student has successfully completed the course so as to prepare the reimbursement check for the student.

One week notice should be given to Mr. Orlando so as to have the check ready to present on graduation night.

(as a side note Mr. Orlando will then pay OCOD with a check in the amount of class pricing as if the student was a club member)
